

Yakovlev Yak-23

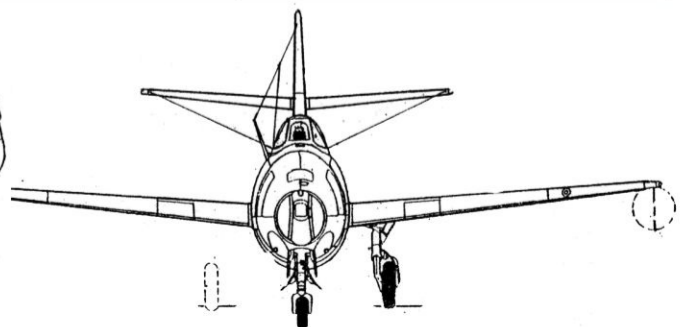

Card model

'Flora'

SCALE 1:48

Model	Yak-23
Into Service	1948
Crew	One
Dimensions	
Span	8.73 m
Length	8.13 m
Height	3.31 m
Wing Area	13.50 sq m
Powerplant	
Type	1 * 1600kg Tumansky RD-500
Weights and Loads	
Weight (Empty)	1980 kg
Weight (Max)	3384 kg
Performance	
Speed	975 km/h
Ceiling	14800 m
Range	1400 km
Armament and Equipment	
Armament	2x23-mm cannons 150P (NR-23)

This was a straightforward extrapolation of the Yak-15 and Yak-17 series, but with a wing similar to that of the Yak-19. The 'Flora' could claim little technological advance, but its handling was highly praised and climb was excellent. The more advanced MiG-15 entered service at the same time. Therefore the Yak-23 was mainly built for export, also licence-production in the Eastern Block.
